

SUBJ: XM Instant Traffic & Weather

Dear Sirs,

I do not understand why any group would want to limit such a valuable service as "locally oriented" content, including the new XM Instant Traffic & Weather channels. This is a "God Send" in the DC area and I'm sure helps prevent accidents.

The best thing about it is it's instant. No 10 minutes of commercials and then 30 seconds of traffic and weather.

Please do the right thing!! Listen to the public.

Warm regards,
J. Glenn Whited
